Re: 99P-1340/CP 1 Petition to Declare *Eternity eau de parfum* "Misbranded"

Please acknowledge that *Eternity eau de parfum* is in violation of regulation 21CFR Sec. 740.1, 740.2 or 740.10 and therefore calls for the FDA to declare it "Misbranded." Section 740.10 requires that:

Each ingredient used in a cosmetic product and each finished cosmetic product shall be adequately substantiated for safety prior to marketing. Any such ingredient or product whose safety is not adequately substantiated prior to marketing is misbranded unless it contains the following conspicuous statement on the principal display panel: "Warning—The safety of this product has not been determined."

Please also declare "Misbranded" any other product that includes any ingredient of questionable safety. Toxic chemicals may be devastating to those with asthma or multiple chemical sensitivity. Fragrances do not affect me to such a degree, but their effects on the highly sensitive can be life threatening. The public deserves consumer protection that extends at least to that of a warning label. Better yet would be to ban the products completely.

Sincerely,

Bob Weggel
